STRIKE CONFERENCE
BEGINS SESSIONS.

Question of Recognition of Unions
Presents Itself—Examination of
Mining Conditions Planned.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Oct. 27.—The Anthracite Coal Strike Commission today, in the hearing-room of the Interstate Commerce Commission, held the first conference with the parties to the controversy in the anthracite regions. There was a full representation of both operators and miners, and members of the press and other interested parties were present. The commission occupied the elevated seats generally filled by members of the Interstate Commerce Commission, Judge Gray, as president, occupying the center, and Messrs. Wright, Watkins and Clark the seats to the right of him. In the order named, while Gen. Wilson, Bishop Spaulding and Parker sat on the left, in the order named. The proceedings covered about two hours' time, and were given up entirely to a discussion of the time and method of proceeding with the proposed investigation.

The commission decided to begin its work next Thursday morning at 9 o'clock, the first day of the investigation to be devoted to a physical examination of the mines and homes of the miners in the vicinity of Scranton. The entire anthracite field will be covered. There was much discussion over a proposition made by the commission to have expert accountants appointed to audit the statements of wages and classification of miners to be made by the operators for the use of the commission, but no result was reached on this point, beyond the announcement by the chairman of the commission's intention to appoint such an accountant, in case his services should be found necessary.

During the progress of the meeting, Mitchell, as representative of the miners, presented a report of the original declaration of the miners, as formulated by the Shamokin convention, as the basis of the demands of the miners. This demand is: First, for an increase of 25 per cent. in the wages of those not engaged by the day; second, a reduction of 25 per cent. in the working hours of those engaged by the day; third, the payment for coal mined by weight, at a minimum rate of 10 cents per ton of 2,000 pounds; fourth, a wage agreement between the operators and miners for an adjustment of wages.

On the part of the coal operators, took exception to Mitchell's appearance before the commission as a representative of the Mine Workers' Union, but said he had no objection to his presence as a representative of the strikers, as such, in their individual capacity. The commission made no attempt to settle the controversy, but it was made apparent that the recognition of the miners' union will be an important and knotty problem for the arbitrators.

ORDER OF PROCEEDINGS.
Before opening the proceedings, the members of the commission and the representatives of the contesting parties were photographed. Judge Gray, the president of the commission, then read the order of the President created by the commission, and in a general way outlined the procedure to be followed in the presentation of the issues. He stated that in accordance with the immemorial practice among English-speaking peoples, the commission would first receive the statement or demands of miners, who were to be regarded, for the purposes of this case, as the prosecutor. The reply of the other side would then be heard, Judge Gray said, in order that the commission might have before it a definite issue. At the conclusion of Judge Gray's remarks, President Mitchell stated that he had with him the formal demands made by the miners upon the operators, and at the suggestion of Judge Gray he read the statement of the miners' demands adopted by the Shamokin convention, the rejection of which resulted in the strike. Walter Edward Weit was also present as a representative of the miners.

It was at this time that President Baer objected to the appearance of Mitchell as a representative of the United Mine Workers of America, but said he had no objection to his appearance as a representative of the anthracite coal miners generally. Baer's object was to avoid the recognition of the Mine Workers' Union as an order. Mitchell replied that the objections raised against Mitchell's appearance were of no account, and that he would proceed as he saw fit. He said that he did appear as a representative of the anthracite coal miners, and distinctly refrained in his reply from mentioning the union.

President Baer and Thomas suggested to the commission that it proceed at once to the coal fields, in order that it might be informed at the outset as to the conditions there. It was agreed that the President should file with the commission next Monday a detailed statement of the wants of the miners. The statement he read was a preliminary statement. A representative of the operators announced they would file an answer to Mitchell's statement by next Monday. It was suggested that each side of the controversy appoint an expert to go through the books of the coal companies for the purpose of securing data upon which to work, but President Baer and other representatives of the companies objected, and suggested that they would furnish whatever information was necessary. A long discussion followed in which the coal operators and the miners' representatives took part.

POLITICAL

PLAYING BOTH ENDS.

Herrin Trying to Pick a Winner.

Pays Lane's Bills as a Personal Friend.

But Wants Gage to Talk for the Republican Ticket.

Silk Banners for Democratic Candidate, but the People are With Pardee.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 27.—[Exclusive Dispatch.] William S. Herrin, head of the Southern Pacific law department and still in California politics, returned from his eastern visit Saturday night. Yesterday and today he saw many people. Among his callers today was Gov. Gage, and it was rumored that the reason for this visit was Herrin's effort to get Gage to come out strong for Pardee in the last week of the campaign. On the other hand, Herrin is known to be a liberal contributor to the Democratic State campaign fund.

Herrin's policy is probably the old railroad policy of playing both ends, in order to land all right in any emergency. Herrin is a close personal friend of Lane, and it is notorious that Lane's decisions as District Attorney were always looked over by Herrin before they were delivered. Lane has never antagonized the railroad and now he is reaping his reward, for railroad money is enabling him to make a campaign in a style which is entirely beyond his private means. He has no money left of his salary, yet he is spending several thousand dollars a month for rent of rooms and for campaign literature. His special headquarters in the Baldwin Hotel, where he has several offices, are being kept up at a cost of \$100 a week. He has a large staff of clerks and stenographers, and he is surrounded by a large number of friends and supporters.

All reports brought to Republican headquarters today showed that Pardee's fight is making headway in San Francisco. The feeling in his favor is growing, and this will increase, as he is scheduled to speak several times here. One who followed him around on his recent circuit said today: "Pardee has developed into a good campaigner. He makes an excellent impression, because he doesn't deliver the usual campaign speech. He indulges in familiar talks, and seems to appeal directly to the people."

RED FIRE FOR PARDEE.
SALINAS WHOOPS IT UP.
[BY THE ASSOCIATED PRESS—P.M.]
SANTA CRUZ, Oct. 27.—Dr. George C. Pardee and wife and Congressman Needham arrived this evening and

THE CITY. Associated Charities denounces Strong boys and other fakers. Ballot-stuffing at Woodmen's Fair elicits strong green, and secretary throws up his job in disgust. "Beggars giving odds to Lane, and Pardee the favorite all along the line." Republican City Convention names ticket. Recent crimes lead to many arrests of suspects. "White girl confesses her love for Harry McGee." Grand jury indicts careless campers. "Young Bull fined \$425." Mrs. Anton Cheney gets off with a fine. "New York Central lines get man away from Salt Lake route." "Forges Frank Murphy's name." "Four years' sentence." Movement to replant mountain slopes. Assault of David Hunter identified as David H. Freund. "Water Board runs against extension puzzle." "Ranch lets sports down." Garvanza and University districts again complain of unjust taxation. "Diagrams and play-acting in murder trial." Martin Aguirre addresses Republican rally.

FOREIGN. South Africa problems far from solution. "World's Fair gets advertising." Irish keep up filibuster. "Emperor Francis Joseph preferred walking." Showers of ashes cover Southern Mexico. "Marmaduke to command Colombian fleet." "Bernhardt plays in Berlin for the first time since 1870." Crimes of a London policeman. "Official report on Hawaiian affairs."

REPUBLICAN SUCCESS
BECOMING CERTAIN.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] The best election estimates that can be obtained from unprejudiced sources, are all to the effect that the Republicans will have control of the House of Representatives by a safe majority, ranging from 20 to 30. Some estimates, coming from exceedingly conservative sources, place the possible majority as low as 21, but a considerable proportion of the estimates go well above that figure, and the average low estimate of the majority is 28, which is a safe majority for all practical purposes.

As election day comes nearer there is a disposition all round to raise the figures of the possible Republican majority in the House rather than to lower them, which surely is a good sign. A few days ago some coils here said that Coler would likely be elected Governor, and carry along with him a considerable number of the New York Congress districts now represented by Republicans. The feeling that the Democrats may be successful in the great pivotal State of New York is gradually disappearing, and in its place is growing up increasing confidence that the Republican victory in that State and Pennsylvania will be overwhelming.

At Democratic Congressional headquarters here there is gloom and despair at the rising Republican tide. There is no question whatever but that the managers of the Democratic campaign feel that they are hopelessly beaten before the election ballots commence to fall, and that they are right now preparing a statement to show that the Democrats to carry the House this time, anyway, because that would enable them to have a Republican success in 1904. Apathy not having been dispelled in the Eastern States, it is considered

SUCCESSOR FOR MILES.

Young to Be the Next Lieutenant-General.

Announcement by the War Department.

Four Deaths from Bubonic Plague in San Francisco. Fighting Vessels.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] The announcement was made this morning at the War Department by Adj. Gen. Corbin of the intention of the Secretary of War to promote Maj.-Gen. S. B. M. Young to command the army upon the retirement of Lieut. Gen. Miles. The recently published statement calling attention to the fact that Gen. Corbin's name preceded that of Gen. Young in the monthly army directory drew the inference that Gen. Corbin would succeed Gen. Miles. Gen. Corbin said this morning: "I think I make no conditions when I am promoted. I am more pleased than I do over the intention of the Secretary of War to promote Gen. Young."

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] According to reports made to the United States Marine Hospital Service, there were four deaths from bubonic plague in San Francisco between October 1 and October 7. Since December 1 last the report shows that there have been thirty-three deaths from plague in that city.

PARENTS FOR FAMILY NEED NOT PAY DUTY.

TREASURY DEPARTMENT DECIDES IN GEN. OTIS'S FAVOR.

Decision in the El Paso Customs Case Establishes the Right of Travelers to Bring in Mexican Goods to the Value of One Hundred Dollars Free of Import.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] The Treasury Department today decided that, upon the presentation of the facts, the duties paid by Gen. Harrison Gray Otis of Los Angeles at El Paso, upon Gen. Otis's recent return from Mexico, were improperly collected, and the collector of customs at El Paso was directed by the Treasury Department to return to Gen. Otis whatever money he paid in duties. In making this decision public the officials of the Treasury Department said that they had found that Gen. Otis, during his recent trip to Mexico, brought some presents for the members of his family, such as any traveler in foreign countries might purchase, and that under the law these presents for his family, to the value of \$100, may be brought into this country without the payment of duty. Therefore, Assistant Secretary of the Treasury Spaulding ordered the duty paid by Gen. Otis (\$48.45) refunded. The order was issued within ten hours of the time that the case came to the official notice of the Treasury Department.

It was added at the department that it was not supposed in Washington that Gen. Otis had brought anything about the money he had paid in duties, but that he was standing for his rights as a citizen returning from a trip to a foreign country, and in that he is upheld by the Treasury Department.

[This is the important case about which the Los Angeles Herald and the San Francisco Examiner shouted in such loud tones of voice, and with so much falsehood, absurdity and yellow sensationalism. The case was a very simple one, without any sensational features whatever. There was no trouble of any kind between Gen. Otis and Collector of Customs Garrett at El Paso, whom he did not even see. Nor did he meet Special Agent Evans of the Treasury Department, who is stationed at El Paso. There were no "threats," nobody "got angry," and there was no "detention."

The simple facts are that Gen. Otis made, before his arrival at El Paso, a complete and correct list of articles brought by him from Mexico, and which he thought might be dutiable, and upon his arrival at El Paso he presented and declared that list, and, without demand, freely exposed all of the articles in the list, and all other articles brought by him in his trunk and valise, for the inspection of the deputy collector and his assistants. The deputy, under his instructions, collected the duty, amounting to \$48.45, at the same time taking pains to inform Gen. Otis, in courteous language, of his rights in the premises, advising him to refer the case to the collector personally, and, if need be, to the Secretary of the Treasury at Washington.

Gen. Otis accordingly wrote a brief note to the collector of customs on the morning of October 17, and the case was thereafter referred by the collector to the Treasury Department, with the result set forth in the foregoing dispatch. This is the whole case. It is the official and non-sensational

outcome of a small and very simple routine matter, about which an attempt has been made in certain quarters to raise a loud noise. The decision of the Treasury Department (which, had it been the opposite, would have been accepted with good grace) may have a useful effect in determining the rights of Americans to crossing the border, with articles of the value of less than \$100, sold, purchased in another country, and which have been declared non-dutiable by the department itself in official circulars and instructions heretofore issued.

OFFICIALLY REPORTED ON.

GOV. DOLE SHOWS THAT THE TERRITORY PROSPERS.

Estimates for Appropriations by Congress Submitted—Recommendations Include Authority for Limited Immigration of Chinese Laborers—Decrease in Leprosy—Shipments of Sugar.

(BY THE ASSOCIATED PRESS, P. M.)

WASHINGTON, Oct. 27.—The affairs of Hawaii during the last fiscal year are reviewed in the annual report of Gov. Dole of that Territory, which has been submitted to the Interior Department. The report shows that the total cash on hand in the territorial government June 30, 1902, was \$237,121. The total amount of property subject to valuation taxes, according to assessments made, was \$110,283,578. The total amount of property subject to valuation taxes, according to assessments made, was \$110,283,578. The total amount of property subject to valuation taxes, according to assessments made, was \$110,283,578.

The report submits the estimates for appropriations by Congress for the fiscal year 1903, aggregating \$1,104,000, of which \$700,000 is for the construction of a breakwater at Hilo Harbor, \$250,000 for widening the channel in Honolulu Harbor, and dredging the channel entrance and harbor to a depth of thirty feet at low water; \$2,000 for a postoffice and a customhouse at Hilo; \$10,000 for the erection and maintenance of lighthouses at Hilo, Honolulu, Oahu, Maui, Kauai, Lanai, Hawaii, Kure, Midway, Palmyra, and other islands.

The Governor makes the following recommendations: That the Federal government assume the management of all Hawaiian lighthouses and other harbor improvements; the maintenance of a forestry establishment, or as an alternative, that the payment of the full amount of the awards made by the Board of Claims in 1893, be assumed by the United States government; or, as an alternative, that the customs receipts collected at Hawaiian ports be paid to the Hawaiian people, and that the Hawaiian people be allowed to dispose of the lands belonging to the public lands, and authority for the government to acquire certain lands, and appoint their successors until the succeeding session of the Hawaiian Senate.

The number of pupils in all schools in Hawaii is now 17,518, an increase of 72 per cent. over ten years ago.

The shipments of merchandise, not including specie, for the past year total in value the sum of \$2,300,000. All of this, except \$100,000, is chargeable to the one item of sugar, and is due solely to the increase in the value of that article and not to a diminished production. Sugar shipped the past year amounted to 22,553,357 pounds, an increase of 29,674,123 pounds.

Of the total value of shipments, not including specie, from the Territory during the past year, amounting to \$2,300,000, the sum of \$3,613 represents the value of foreign merchandise shipped, as against a value of \$4,754 in 1901. Of this total value, the shipments to foreign countries were worth \$3,547, and the mainland were worth \$3,720,189.

PRESIDENT'S BIRTHDAY. HE PASSES IT IN WORK.

WASHINGTON, Oct. 27.—The President today quietly celebrated the forty-fourth anniversary of his birth. He was down in his office early going over some matters with Secretary Cortelyou, who had just returned from Cuba. Many messages of congratulatory remembrance arrived during the morning. Among the latter were many flowers. A club of New York, of which the President is an honorary member, in accordance with their custom for several years, sent him a congratulatory letter.

Several members of the cabinet also called to extend their congratulations. Secretary Mitchell being the first to arrive.

PRESIDENTS FOR FAMILY. A. P. ACCOUNT.

WASHINGTON, Oct. 27.—The Treasury Department today ordered the Collector of Customs at El Paso, Tex., to refund to Gen. Harrison Gray Otis of Los Angeles, Cal., the duties paid by him on personal effects, consisting of presents for his family brought by Gen. Otis during his recent trip through Mexico.

When Gen. Otis reached El Paso on his return trip, customs duties were assessed against article that he claimed to be exempt from duty under the recent ruling of Secretary Shaw. By the decision of the Treasury Department today, Gen. Otis is sustained.

BEST-SUGAR CAMPAIGN. OPPOSITION TO RECIPROCITY.

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] The best-sugar opponents of Cuban reciprocity are likely to find themselves strongly reinforced for the winter campaign from an unexpected quarter. Various foreign nations, particularly France and Germany, are now considering the propriety of notifying the President and the State Department that under the "most-favored nation" clause of the existing treaty they would expect to enjoy any special benefits given to Cuba by the United States.

It is generally believed that such a course is probable, and in support of that position it was cited that the United States has frequently notified countries engaged in Chinese negotiations that the President would expect this country to participate in any special advantages given by China. This occurred several times with regard to special treaties which England was desirous of concluding.

NEW CANAL COMPLICATIONS. CAUSED BY CASEY'S ACT.

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] New and serious obstacles to the successful conclusion of a Panama Canal treaty between this country and Colombia have grown out of the occupation of the isthmus during the revolt by naval forces under Rear-Admiral Casey.

Colombia regards Rear-Admiral Casey's course of action as an unwarranted assumption of sovereignty. Already Colombia has protested, and now she assumes a strong stand. She will not permit the holding of treaty negotiations until the treaty of 1901 under which the United States must preserve to the world of commerce an open transit of the isthmus is revised.

Colombia's position is made supreme. Negotiations to this end are being conducted between the two governments through Minister Hart at Bogota.

Since United States warships put in an appearance in Isthmian waters and troops were landed, there has been a fear expressed by some Colombians that the United States has a permanent occupation of the isthmus, and that the canal strip by force, if necessary.

This, however, has been explicitly denied here by Secretary Moody.

The trouble had not developed when instructions were forwarded by Minister Concha, while he has received no telegraphic order modifying those instructions, has not yet acted upon them. He will not do so until some result has been reached in negotiations looking toward revision or reinterpretation of the treaty of 1901, now being conducted through Minister Hart.

PERU'S COPPER MINES. AMERICANS EXPLOITING THEM.

WASHINGTON, Oct. 27.—Minister Irving D. Davis, of Peru, in a report to the State Department under date of September 17, presents some facts with respect to the copper industry of Peru and American participation therein. Owing to the fall in the price of copper, the American industry has undergone "a certain paralysis," but it is expected that the energetic and enterprising Americans who have established some of the largest plants in Peru will contribute to the highest prosperity of the copper industry.

The introduction of American methods of exploitation and of American machinery already have reduced the price of production to a point having no figure, and the building of new railroads has enabled the native miners to find a new and wider sphere for their industry.

CIVIL SERVICE LAW. ORDER TO ENFORCE IT.

WASHINGTON, Oct. 27.—Secretary Irving D. Davis, of Peru, in a report to the officers and employees of the Department of State:

"Officers and employees of this department are prohibited by law from soliciting or receiving from employees money or other valuable consideration. Both officers and employees may contribute money for such purposes if they desire to do so, but not in government buildings, nor directly or indirectly to persons designated in section 14 of the civil-service act. They are prohibited from such contributions. The department works as a rule incompatible with their official duties. They should not serve on committees charged with the collection and disbursement of political funds, but they are free to vote, and in a proper way to express their political sentiments and opinions."

ARMS AND ARMAMENT FOR FIGHTING SHIPS.

ANNUAL REPORT OF CHIEF OF NAVAL ORDNANCE BUREAU.

Steps Taken to Maintain and Increase the Efficiency of the Navy—High Efficiency of High-Speed Cruisers—Money for Target Practice.

(BY THE ASSOCIATED PRESS—A. M.)

WASHINGTON, Oct. 27.—Admiral O'Neill, chief of the Naval Ordnance Bureau, in his annual report asks for \$12,182,062 for next year, of which \$10,000,000 is to be devoted for arms and armament for new ships.

The gunship at the Washington navy yard during the past year turned out 234 guns, prepared sets of forgings for 146 more, and has sixty-five in course of manufacture. The bureau is preparing a new type of three-inch gun 36-caliber in length, of a semi-automatic character, to replace all guns of this size now in use in the navy.

Admiral O'Neill says that for the first time in years the manufacture of armor has progressed in a satisfactory manner, 7812 tons having been delivered at the various shipyards during the year, with prospects of large increase in the deliveries. Guns, powder and projectiles have made a decided advance, rendering it all the more necessary that there should be an improvement in the quality of the armor, but none seems to be in sight at present. Recently the armor manufacturers voluntarily made a reduction of ten shillings per ton on the royalty for the Krupp process.

Collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the year's collicott and his associates have been purchasing the Krupp process of armor and shell powder, no black or other than smokeless powder has been purchased or manufactured for the navy since the Spanish-American war, and the stability of the smokeless powder is concerned, the results of the SUN'S LIGHT SHUT OUT.

Showers of Ashes Fall in Mexican States.

Panic-stricken People Pray in Streets.

Heavy Loss Probably Caused Coffee Planters—Santa Maria Opens Up.

(BY DIRECT WIRE TO THE TIMES.)
CITY OF MEXICO, Oct. 27.—The showers of ashes that fell from Friday to Sunday in the States of Chiapas and Tabasco are still continuing. It is reported that San Juan Mountain, three leagues from San Cristobal, in Chiapas, is in eruption, but it is conjectured that the ashes may come from Izamal Volcano, Guatemala, three miles from San Juan, the ashes traveling one hundred and twenty kilometers to San Juan, Guatemala, Tabasco, and two hundred to Guatemala, Chiapas. If the showers come from Guatemala, it is near three times the distance at Palenque and Salto del Agua, Chiapas, Guatemala, and San Cristobal. The rain and ash obscures the sun. The streets are covered several inches deep with white ash and the heat is intense. Terrific sounds come from underground. The people, panic-stricken, are praying in the streets. The prevailing wind blows toward the northwest. No loss of life is reported, but there has probably been a heavy loss on the extensive coffee plantations of Chiapas. The government is appointing a commission to proceed south to investigate, and to succor the planters and people.

SANTA MARIA OPENS UP.
(BY THE ASSOCIATED PRESS—A.M.)
NEW YORK, Oct. 27.—Since Saturday morning, the volcano of Santa Maria, in the department of Guatemala, northwestern part of Guatemala, has been in eruption, cables the Herald correspondent at Managua, Nicaragua. The eruption is attended with a terrifying roar and shocks are felt all over Nicaragua, Salvador and Costa Rica. No damage has been done here, but there is great alarm.

Guatemala suffered severely from earthquakes several days last April, when many towns and villages along the Cordillera were either totally or partially reduced to ruins. Santa Maria, which has about six thousand residents. The height of the volcano is 12,467 feet, or about three times as high as Mont Pelée, in Martinique.

POLITICAL.

(CONTINUED FROM FIRST PAGE.)

Democratic Clubs, and Congressman Sulzer of New York were among the speakers. Senator Jones was the presiding officer.

Senator Jones was the first speaker of the evening, devoted himself to the trust question, which, he said, was the great issue of the campaign. He said that the Republican party as an institution, is unopposed to any legislation to the trusts that it will never legislate against them, or enforce against them the laws which already exist.

Senator Jones in a brief speech said that all differences on local matters had been laid aside by Democrats who are now united in the determination to oust the Republican party from State and national control.

After a set of resolutions denouncing the Republican party for its administration of national and State affairs had been unanimously passed, Congressman Griggs, chairman of the Democratic Congressional Committee, spoke at some length. He was followed by former Vice-President Stevenson, who spoke in part as follows:

"For more than five years all departments of the general government have been in the hands of the Republicans and the Republican organization has, with iron will, dominated the policy. Against the willful departure from the safe pathway marked out by the founders of the government, against legislation inspired by greed in the interests of a favored class, against the reckless expenditure of public money, the Democratic minority in Congress was powerless. In many instances, even the right of debate has been denied, and without let or hindrance legislation enacted in utter disregard of the rights of the people."

"The Ship Subsidy Bill has already passed the Senate, and is now pending in the House. Republican victory at the approaching election will ensure the triumph of this bill by which our national treasury will be depleted in the interest of great corporations. The Democratic party is, and has been from the beginning, the antagonist of all subsidy bills, of all legislation which enriches the few at the expense of the many."

"Republican triumph means an endorsement of our treatment of Cuba. The party in power has failed to keep faith with the unfortunate people. The often-promised reciprocity has never materialized."

"The trust is the crying evil of the day. By combinations of capital, unknown to our earlier days, against public policy—and, in many instances, in direct violation of State laws—the small dealer has been driven from the field."

"With few exceptions the trust is the result of the selfishness of our exclusive labor laws."

"Experience has demonstrated the utter inefficiency of the present anti-trust law. Five years of continuous Republican control in Congress have passed, and no sincere attempt made to amend the present law, or enact one more effective."

"In my judgment the tariff is the supreme issue in this campaign. Other questions may be the butt of the hour, but they will pass with the occasion, but this is ever with us. It has to do with providing needed revenues for the support of our government."

"Whenever perverted from its original purpose, as under the present law, it becomes an engine of oppression, and imposes a grievous burden upon the people. Tariff reform is imperative. This can come only through the instrumentality of the Democratic party. No people who are free and independent will be no readjustment or revision by the party now in power."

"The Democratic party is opposed to the tariff of territorial acquisition, dismemberment inaugurated by the Republicans. The subjugation of the Philippine Islands was without constitutional warrant and in direct violation of the spirit of the great charter of our liberties."

"As soon as practicable, consistent with the maintenance of order, our troops should be withdrawn from these islands, and their people left to the protection of a government of their own hands. Conquest and holding the conquered in subjugation is in keeping with the spirit of morality. It is the spirit of the republic. Our future safety depends upon a return to the safe pathway marked out by our founders."

"At the conclusion of Mr. Stevenson's speech, a diversion was created by the entrance of W. S. Devery, who received a great ovation. After this, over the candidate for Governor, Mr. Coler, spoke briefly on State issues. Senator Carmack of Tennessee, ex-Gov. Bullock of California; Mayor Schmitt of San Francisco, and ex-Gov. Hill were the next speakers. Mr. Hill called for the maintenance of order, and the maintenance of the administration of Gov. Odell. 'Alas, most every department of the government,' he asserted, 'is dominated by the most odious and autocratic political machine that has ever fastened upon the people of this State.'"

ADDRESS BY SENATOR HOAR.
EPIPHANIZES TRUST EVILS.
(BY THE ASSOCIATED PRESS—A.M.)
BOSTON, Oct. 27.—The Chickadee Club, a Republican dining organization of Dorchester, ratified the State ticket tonight by listening to a lecture by Senator Hoar, who spoke words of praise for the President, and Gov. Crane, saying that in the national election we are to send men to either uphold the President's hand or men whose sole object in the next two years will be to hunt him from power. He said that the Democratic party during all its history has been a creator of grievances, not a redresser of them. Speaking of trusts, Senator Hoar said: "The evils of the trusts are: (1) Destruction of competition. (2) Destruction of local public spirit. (3) Fraudulent capitalization. (4) Secrecy. (5) Management for the private benefit of the few. (6) The power to corrupt elections, and in some cases to corrupt the courts. (7) In some cases to public sentiment. (8) The first, fourth and fifth can be cured, the cure of the others, in my opinion, will follow."

In conclusion, Senator Hoar discussed strikes, advising the people to combine, he could not see why labor may not also combine.

Geary and Lane.
SANTA ROSA, Oct. 27.—Thomas W. Geary and Franklin K. Lane addressed a large and enthusiastic audience here tonight. Hon. William F. Cowan was chairman. Mr. Geary spoke on national questions. Mr. Lane arrived about 9:30 p.m., on a special train from Napa, where he first spoke at 7:30 in the evening, and he was enthusiastically received. A band, pipe club, anvils and bonfire enlivened the proceedings.

MISSOULA (Mont.) Oct. 27.—Special Agent Batten of the Northern Pacific announced tonight that it is his opinion that Alfred Van Hasenod, who is being held on suspicion of abduction in the North Coast Limited train on the Northern Pacific near Hope, Idaho, is not the man wanted.

colliery matters, and that there should be mutual agreement on the facts, and that controversies should be eliminated, if possible.

"That is the only object we have in view," said he, "in asking the miners to agree to the facts as they are. The company's books are verified in advance."

President Baer responded by saying that the miners should know whether the company's pay rolls were right, and that no issue would arise on that subject.

"Will your statement give the different classes of workmen?" inquired Mitchell.

"Undoubtedly," said Baer. After further controversy between the members of the commission and the miners and mine representatives, Judge Gray left the Lehigh and this morning from San Francisco, October 27. Capt. H. H. Marmaduke, her commander, informed the correspondent of the Associated Press that the vessel made a slow trip because the crew was exercised at target practice all the way down the coast. She stopped at the Lehigh Bay for about three hours, tightening parts of her engines and also for target practice. The Bogota made very good time after that, taking the outside course, and through the principal parts of the city. The Bogota officers had landed their weapons and the fortifications and sights of the city. Capt. Marmaduke visited General Perdomo and his wife, who welcomed him most cordially.

The Colombian gunboats, Chucuito and Claret, are under the orders of the Bogota officers. When the Bogota officers had landed their weapons and the fortifications and sights of the city. Capt. Marmaduke visited General Perdomo and his wife, who welcomed him most cordially.

LABOR.

(CONTINUED FROM FIRST PAGE.)

colliery matters, and that there should be mutual agreement on the facts, and that controversies should be eliminated, if possible.

"That is the only object we have in view," said he, "in asking the miners to agree to the facts as they are. The company's books are verified in advance."

President Baer responded by saying that the miners should know whether the company's pay rolls were right, and that no issue would arise on that subject.

"Will your statement give the different classes of workmen?" inquired Mitchell.

"Undoubtedly," said Baer. After further controversy between the members of the commission and the miners and mine representatives, Judge Gray left the Lehigh and this morning from San Francisco, October 27. Capt. H. H. Marmaduke, her commander, informed the correspondent of the Associated Press that the vessel made a slow trip because the crew was exercised at target practice all the way down the coast. She stopped at the Lehigh Bay for about three hours, tightening parts of her engines and also for target practice. The Bogota made very good time after that, taking the outside course, and through the principal parts of the city. The Bogota officers had landed their weapons and the fortifications and sights of the city. Capt. Marmaduke visited General Perdomo and his wife, who welcomed him most cordially.

SPORTING RECORD.
MATCH RACE FOR PACERS.
Prince Alert Scores an Easy Victory.
New World's Standard is Established.

"Mysterious Billy" Smith's Waterloo—Worth Results and Other Races.

BY THE ASSOCIATED PRESS—P.M.
MEMPHIS (Tenn.) Oct. 27.—The special match race for \$12,000 a side between the paces Prince Alert and Sir Albert, an one heat at half a mile, resulted in an easy victory for the former at the Memphis Driving Park today in the remarkable time of 5:57. This establishes a new world's record for this distance in a race, beating the former time by 2 1/2 seconds. Summary: The 1 1/2 mile, two heat, was won by Prince Alert, who won the first heat in 2:12 1/2 and the second in 2:12 1/2. The Queen's cup, free for all, paces, was won by Fanny Dillard with two straight heats in 2:04 1/2 and 2:04 1/2. Four others also started. The 2:30 trot, purse \$1000: Ferno won the first heat in 2:12 1/2 and the second in 2:12 1/2. The Queen's cup, free for all, paces, was won by Fanny Dillard with two straight heats in 2:04 1/2 and 2:04 1/2. Four others also started. The 2:30 trot, purse \$1000: Ferno won the first heat in 2:12 1/2 and the second in 2:12 1/2. The Queen's cup, free for all, paces, was won by Fanny Dillard with two straight heats in 2:04 1/2 and 2:04 1/2. Four others also started.

ROOT DEFEATS CARTER.
DECISION AFTER SIX ROUNDS.
CHICAGO, Oct. 27.—Jack Root of Chicago was given the decision over "Kid" Carter of Brooklyn at the end of six rounds tonight. The fight was one of the fastest between big men that has taken place in this city in several years. In the first and second rounds Root kept up a succession of left jabs, now and then shooting in a short right back, which invariably landed on Carter's nose. Carter was unable to hit Root with any effect, and at the end of the second round, when Carter went to his corner in a groggy condition, it was as though the fight would not be the limit of six rounds. In the third and fourth rounds, however, Carter came back strongly and the better of his particularly in the third round, when he sent in a succession of right swings that caught Root on the jaw and neck. In the fifth round Root resumed the lead he had won in the earlier part of the fight and hammered Carter all over the ring. The sixth round ended in a bad way when the round ended. Root was bleeding from the nose and from a bad cut over the left eye, and was weakening rapidly. He could hardly have lasted one more round.

TWO WILSON TACTICS.
SAVED YOUNG ERNE.
PHILADELPHIA, Oct. 27.—"Young Erne" of this city managed to stay six rounds with Young Corbett, the featherweight champion tonight at the Washington Sporting Club. During the six rounds Erne was down twenty-four times, but only one of these falls was the result of a fair knock-down blow. Corbett rushed the fighting from the start and almost every time he hit Erne, the latter would crowd down on his knees either to rest or for punishment. At the close of the fourth round Corbett beat Erne with a swinging blow squarely on the mouth, sending him in a heap to the floor. Erne, however, had not been counted out and had not the bell saved him. Erne showed much cleverness, but was no match for his adversary.

NO PLACE FOR BURNS.
FRANCE TO AGAIN EXPEL HIM.
PARIS, Oct. 27.—(By Atlantic Cable.) Le Bol says that Burns, an American seaman, who was recently expelled from France, after investigations on the part of the authorities of the alleged traitor scandals, having returned to this country in the expectation that the case would be reheard, the Minister of Interior directed that he be at once expelled again. Burns was arrested this afternoon, and will be conducted to the frontier.

CORBETT REFUSES MONEY.
WILL NOT FIGHT GARDNER.
NEW YORK, Oct. 27.—(Exclusive Dispatch.) That Jim Corbett only intends to fight Jim Jeffries for the world's championship and then retire from the ring forever is demonstrated in his refusal to fight George Gardner, middleweight champion of New England. Harry Corbett wired to the champion, asking him if he would fight Gardner for 60 per cent. of the gross receipts and a side bet of \$2500 during the latter part of December. Jim answered that he would not fight second-rounders, and that the only man he would fight would be Jeffries. In refusing to fight Gardner, Corbett loses a chance to make at least \$10,000. The match would likely bring \$50,000. Sporting men in San Francisco are anxious to see Corbett fight Gardner, and would gladly pay any price to see the men in a match game at this month.

LIPSCHUTZ'S OVERSIGHT.
HAD CHANCE TO BEAT LASKER.
NEW YORK, Oct. 27.—Lasker, the world's champion chess player, narrowly escaped being beaten by the local expert, Lipschut, in a match game at the Manhattan Chess Club last night. Lipschut started the game with a Vienna opening, and had a chance of administering a mate in five moves, but, however, allowed Lasker to escape.

The game was adjourned to Wednesday afternoon. Showalter sent a dispatch to Lasker yesterday, resigning the adjourned game from Monday evening. The Kentuckian said it was a hopeless case, and that further play would be useless.

AMERICAN LEAGUE.
INVASION OF NEW YORK.
NEW YORK, Oct. 27.—(By Associated Press.)—Dan B. Johnson, president of the American League, who is in this city, said, regarding the announcement just made of the list of players for the proposed new league:

"Every man on the list has been signed by an American League club, and moreover, I know the contracts will be lived up to. Baltimore is not a drop from our circuit to make way for New York, and in this city right in Manhattan Island, we have leased grounds not only convenient, but accessible. "We have made known the names of the players who will compose the New York team, and our next step will be to inform the public of the location of our park. The time is not yet ripe for us to divulge the locality, but I will do so shortly. I have been balked once or twice in my plans, but this time everything has gone right, and there is nothing ahead but plain sailing."

FRANK ELWELL KILLED.
NOTED MOTOR CYCLIST.
NEW YORK, Oct. 27.—Frank Elwell of Brooklyn, an international authority on motor cycling and a frequent contributor to the magazines devoted to this sport, has been killed near Hicksville, L. I., while participating in a club run.

He had been riding his machine broke as he was speeding along at a fast clip, and he was hurled to the ground with such force that his neck was broken. Elwell had traveled through Europe, Asia and Northern Africa on the machine that caused his death. There were seventy-two cyclists in the party. Elwell was the last man in the string. As the party neared Hicksville he put on full power in order to catch up with the others, and while crossing the railroad track his machine suddenly fell apart. When a physician reached him he was dead.

"MYSTERIOUS BILLY" BEATER.
NEGRO SAILOR "DOES" HIM.
PORTLAND, Oct. 27.—(Exclusive Dispatch.) "Mysterious Billy" Smith, one-time welterweight champion of the world and now a sailor boarding-house master in Portland, is in serious trouble, all because he attempted to "do up" a crowd of sailors on board the British bark Morven. Smith met his match in a colored sailor, Henry Hopkins, and the "mysterious one" and his partners, two white brothers, have been charged with assault and battery. Smith and his companions boarded the Morven yesterday for the purpose of enticing Griffith Jones, an able seaman, to desert. When the "crimps" went aboard, Jones's companions advised him to stay where he was. The latter decided to remain, and then Smith began to use his fists. He collided with Hopkins, the colored man, and as a result, the ex-prize fighter hastily retired over the side of the ship with his head badly discolored. The city authorities propose to look into the affair closely, as "crimps" are strictly prohibited from boarding the vessels.

NOT A "PRIZE FIGHT."
WATERBURY WATCHES MATCHES.
WATERBURY (Conn.) Oct. 27.—The Board of Public Safety, at a meeting tonight, declined to consider a protest calling the approaching "Young Corbett-Rice fight a prize fight." The board will not revoke the license, and the exhibition will take place November 6, in spite of remonstrance, unless the State's Attorney interferes. The Citizens' Committee met at the Y.M.C.A. rooms and considered plans for legal steps, if necessary, to prevent the fight.

Results at Latonia.
CINCINNATI, Oct. 27.—Six furlongs: J. J. T. won, Moderator second, Floret third; time 1:37 1/2. Five furlongs: Bob Franklin won, Nick Longworth second, Barge third; time 1:09 1/2. One mile and a half: Trocadero won, Altona second, Aimless third; time 1:55. One mile and a half: Lady Huron won, Pat Garrett second, Secundus third; time 1:47 1/2. Five and a half furlongs: Bridal March won, Maxette second, Miss Eon third; time 1:15. Six furlongs: Aden won, Optimo second, Hintime third; time 1:19 1/2.

Aqueduct Races.
NEW YORK, Oct. 27.—Selling, seven furlongs: Gloria won, Rocky second, Honolulu third; time 1:37 1/2. Five and a half furlongs: St. Daniel won, J. Latimer second, Counterpoise third; time 1:08 3/4. Selling, mile and seventy yards: H. L. Coleman won, Earl Leduc second, Ben Howard third; time 1:47 1/2. The Aqueduct Handicap, one mile and a half: Glenwater won, Andy Williams second, Carbuncle third; time 1:48 1/2. Five and a half furlongs: Captivator won, Kittington second, Earl of Warwick third; time 1:17 1/2. One mile and seventy yards: Unmasked won, Caller second, Tenagra third; time 1:46 1/2.

Racing at St. Louis.
ST. LOUIS, Oct. 27.—Five and a half furlongs: Action won, Fair Lass second, Light Opera third; time 1:09. Six furlongs: Lady Idria won, One More second, Lofter third; time 1:15 1/2. Mile and seventy yards: Buccleuch won, Oudenberg second, Sambo third; time 1:46 1/2. Six furlongs, purse: Happy Chappy won, Has d'Or second, Schwalbe third; time 1:14 1/2. Seven furlongs, selling: The Messenger won, Icicle second, Red Apple third; time 1:25 1/2.

Worth Summary.
CHICAGO, Oct. 27.—Five and a half furlongs: Appleweat won, Arthur Bruce second, Leash third; time 1:08 3/4. One mile: Ferial won, Dr. Stephens second, Hookwing third; time 1:41 1/2. Six furlongs: Optional won, Bummer second, I. Samuelson third; time 1:14 1/2. Six and a half furlongs: Ethelene won, St. Cuthbert second, Elsie L. third; time 1:19 3/4. Five furlongs: Bad News won, Au Revoir second, For Wayne third; time 1:09 1/2. One mile and a half: Sot h P 14 won, Fredrick second, Moabina third; time 1:47 1/2.

Will Go to Henley.
ITHACA, Oct. 27.—At a meeting of the Athletic Council of Cornell University held today a vote was taken on the proposition of sending a crew to Henley next year, and the majority was largely in favor of the idea.

Cut in Eleven Rounds.
GREAT FALLS (Mont.) Oct. 27.—Mose La Fontaine, champion heavyweight of Montana, tonight knocked out Eddie Crook of Great Falls in the eleventh round. Crook went to the floor under a straight left.

GERMANY.
BERNHARDT IN BERLIN AFTER MANY YEARS.
HER FIRST APPEARANCE THERE SINCE FRANCO-GERMAN WAR.

Fashionable Audience Present and the Great French Actress After Her Sixth Recall Amid Tumultuous Applause Says, "If Statesmen Can Forget So Can I."

BY THE ASSOCIATED PRESS—P.M.
BERLIN, Oct. 27.—(By Atlantic Cable.) Sarah Bernhardt, for the first time since 1870, played in Germany to night. She appeared in "Fedora" at the Royal Theater before an assemblage of members of the nobility, and the first social personages of Berlin. Emperor William and the Empress were not present, but they sent a huge wreath to the French actress. It is understood that their Majesties will attend the performance of the actress, who was tumultuously applauded. At the end of each act she was recalled four or five times, and at the close of the performance, after the sixth recall, and surrounded by a mass of flowers and wreaths, Mme Bernhardt said: "If statesmen can forget, so can I."

KELLY HELD FOR MURDER.
BUTTE (Mont.) Oct. 27.—James W. Kelly, late city editor of the Inter Mountain, was formally charged in the District Court this morning with the murder of Dr. Henry A. Cayley. Cayley died Friday, and was buried yesterday. Kelly refused to make a statement. The trial was set for November 6.

TOURING THE COUNTRY.
OMAHA (Neb.) Oct. 27.—B. M. Boisvaine of Amsterdam, Holland, a multimillionaire and heavy stockholder in the Harland & Wolff shipyard, arrived in this city today in a special Rock Island train, being on a trip for pleasure and inspection of his numerous railroads and other interests. He left for Denver tonight.

Lingsell Resigns.
TOPEKA (Kan.) Oct. 27.—A. R. Lingsell, for several years assistant superintendent of telegraph of the Rock Island road, today resigned his position, to take effect at once. Lingsell has several offers of employment, but will probably leave for New York City.

CHILEANS LIKE WILSON.
SANTIAGO DE CHILE, Oct. 27.—The news of the return to Chile of United States Minister Henry L. Wilson has been received in official circles here with great satisfaction.

FLASHES FROM THE WIRES.
Fire at Payson, Utah, has destroyed four business blocks, causing a loss of between \$15,000 and \$20,000. Philo and William Whymran, Henry Nebeker and Charles Bogedahl, volunteer firemen, were badly hurt.

The north-bound train on the Mississippi Railroad was wrecked south of Baton Rouge, La., as a result of running into a drove of cattle. The entire train was derailed. Engineer Harry Keulhan and a trainman were killed. King Oscar's decision in the Samoan arbitration was arrived at in agreement with the opinions of three jurists. M. Ducloux, formerly Swedish minister of justice; M. Hagerup, ex-premier of Norway; and M. Cedarkarz, who was Chief Justice of Samoa, all of whom were called in to assist in the work of the arbitration.

Millard Fillmore, Lester, a wealthy farmer of Plainville, Ill., was placed in jail yesterday charged with killing Frederick Larimore, who was found dead near his home in Plainville last Thursday night. Lester, it is charged, had warned Larimore to cease paying attention to the former's daughter.

J. C. Rodger, Dan Caranahan and Hugh Morrow, three of the boys of Oklahoma City, were killed this morning near Neal by a Santa Fe train. The boys had been riding on a returning home, walked down the track. John Vincent, alias Dondorf, was arrested yesterday in New York, charged with swindling by means of the false wire-tapping gang. The complainant is Thomas Jordan, a saloon-keeper, who says Jordan, Lester, is a friend of him. The police are looking for Vincent's alleged accomplices.

Diamonds valued at \$3000 have been stolen from the safe of the jewelry firm of Wecker & Weinman. There is no clew to the robbery. The store is located near the Masonic Temple, Chicago, where a warehouseman is on duty all night, but he claims to have seen no trace of the robbers.

Ticket Broker Released.
WASHINGTON, Oct. 27.—A. F. Macbold, the ticket broker, arrested for contempt of court, for alleged violation of the restraining order granted by the district Supreme Court in the cases brought by a number of railroads against those they charged with the trafficking in non-transferable tickets issued on account of the G.A.R. encampment, was today released from custody.

BUSINESS SUCCESSES.
One of the most successful merchants in this country has produced one of the public into his confidence. He advertised no fake sales, he never allowed any misrepresentation of his goods to be made by his clerks, he gave his patrons the benefit of concessions he received from manufacturers and he invariably gave the qualities he advertised. This practice has been his business on the faith of the public, and he has always placed him practically beyond the reach of competition. If publishers would all do likewise, telling advertisers just what circulation they have and where it goes, it would operate to the same end. The very honesty of the representations would incline advertisers to help a good cause along.—[Mahlin's Magazine, October.

A Unique Collection.
At considerable expense The Times has secured 25 original and exceptionally beautiful California views, showing some half-ton pictures were printed, and are now ready for sale. Each set consists of 25 cards. Postage or expressing 15 cents additional. The full set is an ornament fit for any parlor table and should be a valuable souvenir of California to send to near friends. Patrons desiring to order them, may address The Times-Mirror Company, 1000 Los Angeles, Cal.

Your Money Back if you're not Satisfied
COLD FACTS
IT is not our ads. that make our Tailoring department so successful. It's the good woollens and linings, the sterling workmanship and the clever draping; and last, but not best of all, the popular prices—\$25 up. Here style is married to reliability and price performs the ceremony. You are invited.

LAWN BOWLING GROWING POPULAR.
ANCIENT GAME OF SCOTLAND NOW PLAYED IN AMERICA.
No Sport Arouses More Enthusiasm and Requires More Skill Than a Game of Bowls on Velvet Greens. Say Its Votaries.

[New York Tribune:] Up to the present lawn bowling on the green or lawn bowling, as it is sometimes called, that ancient and royal game of Scotland, could not be counted one of the popular pastimes of Americans, but its merits have at last been recognized, and today it is being enjoyed by the greatest amount of exercise at the least physical cost, nor is there one more sociable. Indeed, its chief charm lies in the facilities it gives for social intercourse and the cultivation of good fellowship.

While it is true that a form of the game was played by our ancestors, as witness the stained-glass window in the building at No. 11 Broadway, portraying the game as played on the old Bowling Green in New York City, the introduction of the lawn bowling into the United States was in 1875, when Charles Schepin of Elmfield, N. J., imported a set of bowls from Scotland, and built a private green at Dunellen, N. J., for the entertainment of himself and his friends. The history of the development of the game from this humble beginning forms a most interesting chapter in the annals of American sport.

Until 1885 the members of the Dunellen Bowling Green Club, as this coterie of players styled themselves, were content to engage in matches with each other, but in that year a number of men from New Brunswick, N. J., went to Dunellen, to watch the games there, became interested, and formed what was termed the Middlesex Bowling Green Club. Both organizations played on the greens at Dunellen until 1894, when the membership of the Dunellen club had grown to such an extent that it was deemed advisable to seek new quarters in a location more convenient to the players, many of whom came from Jersey City, New York and Brooklyn.

Accordingly, ground was leased at Communipaw, N. J., and six full-sized greens were built. The club, with its change of home, changed its name, and is now known as the New Jersey Bowling Green Club. Meantime other bowling organizations have sprung up in the country, the most notable being the Boston Curling Club, which turned from curling to bowling with such good results that it has since become one of the United States. Other cities and towns where strong organizations have grown to such an extent that it is deemed advisable to seek new quarters in a location more convenient to the players, many of whom came from Jersey City, New York and Brooklyn.

Canadians are devoted to lawn bowling, almost every hamlet, especially in Ontario, having its green. In both countries the laws of the game are the same, and it should not be difficult at some future date to arrange an annual lawn bowling tournament, an event that would do more than anything else to increase the popularity of the sport in this country.

Lawn bowling differs essentially from indoor bowling. A lawn bowler declares there can be no comparison between the two unless it is that the former is to the latter what billiards is to pool. The game is easy to learn, though, like billiards, it takes a world of ability to play it well. The objective point is not a tenpin, but a small white china ball, known as the jack. The bowls are round wooden balls, very heavy, and the player, while standing on one end of the green, the players bowl side a little more convex than the other. This causes the bowl to run on a bias, or to curve when the momentum is exhausted. The science of the game consists in utilizing this bias to send the bowl around any bowls that may lie between it and the jack, the object being to let the bowl rest as near the jack as possible.

The greens on which the game is played are called rinks, and the contesting teams are likewise termed rinks. The playing green should be 100 feet long and twenty feet wide, and the turf should be of the finest, green, obtainable, close, compact and cut to the ground. After placing the jack at one end of the green, the players bowl from the other, every player being obliged to stand on a rubber mat while throwing his bowl. The throwing of the arm is an underhand swing, and as the bowls are not only heavy, but comparatively small, great skill is necessary in gauging distance and direction.

As a rule, the game is played by rinks of four men, each player having two bowls. The captains of the rinks are called skips, and play last. After three players deliver bowls, each player regarding the speed and position of bias necessary to hold position or to regain a lost advantage. The jacks are compared, while the skip stands near the jack to note the results of the play, and to advise their next player regarding the speed and position of bias necessary to hold position or to regain a lost advantage. The jacks are compared, while the skip stands near the jack to note the results of the play, and to advise their next player regarding the speed and position of bias necessary to hold position or to regain a lost advantage. The jacks are compared, while the skip stands near the jack to note the results of the play, and to advise their next player regarding the speed and position of bias necessary to hold position or to regain a lost advantage.

5th Annual Sale of Winter Underwear Now in Progress.

NONE SUCH
Mince Pie
A mince pie made of NONE SUCH MINCE MEAT is a mince pie made "like mother used to make." No other kind claims this distinction. NONE SUCH is prepared from a home recipe in a kitchen as clean as yours from the best fruit, stock and spices that money can buy in immense quantities. In all essentials (except cost to the consumer) NONE SUCH is a home-made mince meat. Various brands are trading on the name of NONE SUCH, but they are poor counterfeits, and if recommended as substitutes should be rejected. NONE SUCH stands alone on an established name of long standing. Ask for NONE SUCH and stick to it.
Plum Pudding
To make a plum pudding that tastes the way it did at the old home use NONE SUCH MINCE MEAT. You can place your faith in it. (The users of 12,000,000 packages last year did.) In the preparation of NONE SUCH all the finest qualities of the ingredients are preserved, and there's no palate so keen that it will not fully satisfy. NONE SUCH comes in air-tight cartons (containing three-quarters of a pound of mince-meat) packed just moist enough to retain all the juicy, delicious virtues of the contents. It is ready for the oven when water enough is added to form it as wished. NONE SUCH is a condensed mince-meat and must not be classed with the substitutes sold from mummy pails or in bulk.
Cake
In fruit cake or hermit cookies NONE SUCH MINCE MEAT is a ready-at-hand preparation that is a boon in every kitchen. Hundreds of thousands of housewives rise up and call it blessed. This mince meat is a perfect blend of all the wholesome parts which often puzzle the most careful cook, every ingredient being in exactly the right proportion to give the whole its useful quality. The good of everything of which it is compounded is held secure from deterioration in our process of manufacture, and therein is the secret that housewives value. They know how elusive good results are in the blending of mince meat. It is their voice which has made NONE SUCH famous.
All grocers sell it at 10 cents a package. Metcalf-Soule Co. make it at Syracuse, N. Y.
Valuable premium list of "1912 Rogers Bros." silverware enclosed.

(THE OLD RELIABLE HOUSE)
313 SOUTH BROADWAY.
WASHINGTON, Oct. 27.—The Comptroller of the Currency has declared a dividend of 15 per cent. in favor of the creditors of the insolvent First National Bank of Vancouver, Wash.

DELLI'S THE PUBLIC SERVICE OFFICIAL DOGS.

SUMMARY OF THE DAY.

Garvanza and University property-owners have filed another protest against unjust taxation. The Council yesterday put off consideration of the poolroom ordinance until next Monday. The Federal grand jury has found a number of indictments against careless drivers.

AT THE CITY HALL.

SUBURBS UNJUST TAXATION. Garvanza and University not admitted on time.

City Fathers Hard to Catch Around the Hall Yesterday.—Consideration of Poolroom Ordinance Postponed—Other Measures.

A petition bearing the signatures of a number of the principal property owners of Garvanza and University was presented yesterday, praying for dismissal of a suit generally known as the Hamilton Brown case. Judging from the petition, the residents of the Garvanza and University suburbs do not consider that the advantage of being part of Los Angeles is quite worth the expense of an extra tax levy, and while they like to have their property within the city limits, they do not wish to pay taxes on property that is in the country before the city thrust its cloak over them.

The petition, in full, reads as follows: "To the Honorable City Council of Los Angeles, Gentlemen: The undersigned owners of property in University and Garvanza respectfully request you to take action in the matter of the appeal in this case for those districts."

"As you may already know, the city assessed us for property held by us in the month of March, 1932, while said property did not become a part of the city until June, 1932, and we were not before two Superior Courts as to the legality of the tax which was levied on us as stated.

"Nevertheless, said property was sold by the city for taxes, and for more than two years said property has been a cloud on nearly all the property of University and Garvanza.

"Many property owners paid the taxes after the sale, but the cloud on most of the titles still remains, as stated. "The city can gain nothing whatever by continuing this matter and can lose nothing by dismissing the appeal. "We therefore request your honor to order the city to dismiss said appeal."

"Facing the appeal of the Brown case, the sale of property in the two areas has been continued, and has resulted in a claim against the various property owners. "Returns on the city assessment were mailed before University and Garvanza were taken inside the city limits. "Returns on the city assessment were mailed before University and Garvanza were taken inside the city limits. "Returns on the city assessment were mailed before University and Garvanza were taken inside the city limits."

COUNCIL'S VACATION. WATERMEN WERE VERY SCARC. Councilmen were perverted by the real essence of hurry yesterday, and the meeting that convened at 10 o'clock seemed to only want to gather and see that the city did not die overnight. The meeting of the Board of Public Works went through with lightning rapidity, and the City Engineer's report quickly was into oblivion like a comet.

The City Dads needed the city convention, or vice versa, and they fled to a scene of battle like adjusters to a case.

Before they flew, however, the Councilmen passed restrictive measures against the speed of highway traffic. The steam juggernauts must be slowed down to four miles an hour at the principal crossings of the streets in the city, and the Chief of Police is ordered to secure strict observance of the new law.

City Meets County. Property owners on Vermont avenue presented a petition yesterday asking permission to improve, without expense to the city, that part of Vermont street on the east side north of Tennessee street to conform to the gradient on west side established by the county. The street is the city boundary at that point.

ARMLESS QUARTERMASTER. Government Wants an Accounting from Rosenberg for Supplies of Value Estimated \$100,000. THE ASSOCIATED PRESS.—P.M. (Mont.) Oct. 27.—A special messenger from Helena says Paul Rosenberg, a man who has been made defendant in a suit commenced by the United States District Attorney Carl Quinn. The government claims that the defendant, while second lieutenant and acting quartermaster in the Tenth United States Cavalry in Florida and Oklahoma, in 1898-99, failed to account for a large amount of supplies, together with \$100 in money. The supplies, it is claimed, aggregated \$12,000 in value, consisted of food and other requisites for the regiment between July 1, 1898, and July 1, 1902.

The government official stated today that as a matter of fact the government did not expect to recover such a sum as was sued for. It was stated that Rosenberg had failed to properly account for the supplies, but that he had turned them over to the army when he retired from the service. The government claims that he expended the money charged against him for coffee and the remainder between August 1 and November 1, 1898.

Beauties of California. The Los Angeles district court which The judge has distributed free to the public. During the last six months, in the court of the judge, a number of beautiful girls have been ready for a husband. The judge has distributed a number of beautiful girls to the public. BOYD TRIAL AT TAPE-MEASURE STAGE. WITNESS OR CONTRADICTS YOUNG ROUNDER JOHNSON.

Difference of Opinion as to the Location of the Table May Cut a Considerable Figure in the Case—Doctors Describe the Fatal Wounds.

McComas of the flood-tide locks, achieved a historic triumph in the Boyd trial yesterday by impeaching the murdered gambler, Yeager. The Catalina murder was dramatized in the courtroom.

Before they got through about half the people connected with the big murder trial had been cast for the role of Yeager in the gruesome scene; but "Mac" eclipsed them all. Luther Brown did very well as a lay figure to mark out wounds on a table, but he was not the star of the show.

The first part of the day was given up to settling the identity of the fatal pistol which killed Yeager. D. A. Parks, now a motorman on the Los Angeles-Pacific Railroad Company, testified that Davis, the bartender, gave him the pistol after the shooting. Davis said he didn't. Park thought he recognized the pistol, but was not so very sure. After him came Otto Mandel, the deputy constable.

Parks, now a motorman on the Los Angeles-Pacific Railroad Company, testified that Davis, the bartender, gave him the pistol after the shooting. Davis said he didn't. Park thought he recognized the pistol, but was not so very sure. After him came Otto Mandel, the deputy constable.

Morton's Modern Methods Cure Many "Incurable" Cases.

If all doctors made sure of the exact cause of disordered conditions before beginning treatment fewer common ailments would be allowed to reach the chronic stage. Treating for something that the patient hasn't got is worse than no treatment at all; and a partial cure isn't much better. Dr. Morton studies every case thoroughly before giving a drop of medicine. His twenty years of practice in chronic diseases have taught him that each case has its own peculiarities; that set rules of treatment won't work to perfection; that in order to effect a permanent cure you must first find out the exact cause of the trouble, eradicate it and then repair the damage that has been done.

Dr. Morton has every modern appliance for the successful treatment of

Throat and Lung Troubles, Specific Blood Diseases, Diseases of Men, Piles and Rectal Troubles, Stomach and Bowel Disorders, Liver, Kidney and Bladder Troubles, All Female Complaints, Asthma, Bronchitis, etc.

He especially invites all who have treated without success to call and allow him to explain a mode of treatment that will appeal to their better judgment, and one that is convincing of the good there is in it. To prove the efficacy of this method of treatment in curing catarrh and other chronic conditions of the throat and chest, he will give two weeks treatment absolutely free as a test of the improved curative properties which are absolutely certain in his results. This is not a charity offer, but simply to give the public an opportunity to test his method of a treatment far in advance of the times. No one should fail to take advantage of this liberal offer, as it is given for a limited time only.

DR. MORTON, Specialist, ACUTE AND CHRONIC DISEASES. Fourth and Broadway. Entrance on Elber Street. Hours from 9 to 4 and 7 to 8 o'clock; Sundays, 10 to 1 p. m.

DOCTOR HARRISON Treats Men's Diseases Only. 17 Years a Specialist. 9 Years in Los Angeles. Office Entire Second Floor, 112 Main St. Just North of First.

Cure, absolute cure and thousands of them have clearly demonstrated to a certainty that my methods for the cure of MEN'S DISEASES are the safest, surest and quickest employed anywhere by any specialist in my chosen branch of the medical profession. The cure I make, stand the test of time, and that is why my reputation as a THOROUGH MASTER OF MEN'S DISEASES has become so universally known.

CALIFORNIANS IN OLD MEXICO.

Los Angeles Business Men Promoting a Big Enterprise for the Development of Oil-Shipping Oranges to United States.

CITY OF MEXICO, Oct. 26.—A number of California business men are looking for oil, not for lubricating purposes and for lighting, but also for use as fuel, in view of the high price of coal. Oil is duty free in Mexico, but it costs laid down in this capital \$17 to \$18 a barrel, and in retail as high as \$22. Owing to the altitude (7400 feet above sea level), it is hard to raise steam in this city, and it requires from two and a half to three tons of coal per horsepower. Crude oil pays an import duty, and the freight rate from Vera Cruz to this capital is \$2 per ton. But the oil, even at places removed from the City of Mexico, it is calculated would not cost over \$2 per barrel, as compared with coal, provided it could be found in quantities sufficient, and in proximity to some public carrier.

Vice-President Morton of the Mexican National Railroad, who has since moved to St. Louis, in company with other local capitalists, thought that had solved the question when they discovered oil in this valley. But it turned out to be marsh oil. The valley of Mexico is surrounded by a range of mountains two hundred miles in circumference, and almost at every angle are found the evidences of volcanic eruptions; to the northeast the Popocatepetl, to the west the Volcans de Ajusco, to the east and southeast the two extinct, but sometimes smoking volcanoes, Ixtaccihuatl and Popocatepetl; to the west the extinct Volcan de Parícut, from whose bosom areas ago flowed a stream of lava that covers a part of the valley, and in places traced westward to the Pacific. The eruptions in and around this valley must have been more tremendous than any ever recorded in history. This fact destroys the chance of successful oil boring in the valley of Mexico.

CALIFORNIANS PROSPECTING.
Among others here for the purpose of finding oil is S. C. Graham of California, but his plans are not yet public property. Edward L. Doherty is also here with a party, including C. E. Harwood, A. P. Harwood, A. P. Maginnis, E. W. Gilmore, H. G. Wylie and Mrs. Wylie, C. A. Quinn and Robert Burns. They have come here on this third trip in Mr. Doherty's car, "Estelle," and during this week the party left for the site of their operations at Eban, near Tampico. Mr. Doherty is president of the Mexican Petroleum Company, and Mr. Maginnis is the Mexican manager. Mr. Gilmore is president of the Mexican Asphalt and Construction Company; for they expect to unearth asphalt in considerable quantities. Herbert F. Wylie, the general superintendent, was formerly superintendent of the Petroleum Development Company of Alaska.

The party are enthusiastic over the results of their work so far. They have now eight wells completed, with a joint capacity of 100 barrels a day, and the oil is what is technically known as 14 per cent. gravity, and it has an asphaltum content of 10 per cent. of development commenced in July, 1901, but it is only within the past few months that the oil has been found. The percentage of illuminating power, according to their experiments, is greater than that of the California wells, and the present outlook is better, they say, than that of the Bakersfield wells.

A PROMISING OUTLOOK.
The distance from this city is 400 kilometers and from the city of Tampico thirty-five miles. The company expects to spend \$1,500,000, and Mr. Doherty said:

"We aim to dispose of the bulk of our oil for fuel, and will soon be ready to make contracts to deliver 1000 barrels a day, and before the first of January, 1904, we expect to be able to furnish 5000 barrels a day. Our wells now from 600 to 700 feet deep, and we have found 200 feet of porous oil-producing formation. We have thirty American mechanics and 400 Mexican laborers at work; to the latter we pay a dollar a day wages, whereas they used to earn, two years ago, 10 cents per day. Our steel tanks will have a storage capacity of 4,000,000 gallons of oil, and the asphaltum refinery we are about to build will have a capacity of 1200 barrels daily. The works at Eban include a pipe line for water, fourteen miles long, with 1000 inch pipe, and which will cost \$2,500,000; nine kilometers of standard-gauge railroad, an electric-light plant to cost \$12,000,000; a sugar mill, the first to be built in this country; an ice and cold storage plant, with supply of two tons daily of ice and giving 2000 square feet of room for storage purposes; an air compressor, to cost \$11,000. We have spent nearly \$100,000 for warehouse buildings, and are outfitting a machine shop, blacksmith shop, planing and sawmill as can be found along the coast. On these three lines of work we will spend \$1,500,000."

THE SEARCH ELSEWHERE.
Meanwhile the search for oil as fuel and for lighting purposes goes on in other parts of Mexico. The efforts to locate oil in Sonora along the line of the Southern Pacific holdings, and the lands of Pennsylvania parties, near San Marcial, have not yet materialized, but attention is turned toward the Isthmus of Tehuantepec, and the more southern portion of the country. Oil is found on the Isthmus, but in quantities that are not yet commercial. A company has been organized in this city by P. O. Saunders, called the Tabasco Oil and Exploration Company, and they are investigating tracts of land in the State of Tabasco. Mr. Saunders claims to have found oil in 24,000 quantities on lands belonging to Senator Simon Sarlat, near San Fernando, in the county of Macapana, Tabasco. The first well bored at a depth of 1000 feet developed a quantity of 5000 gallons per day, which Mr. Saunders says is fine for fuel and for lighting purposes. The well was struck slightly over seventy feet from the surface.

The coal strike in the United States, forcing the price of coal up to \$12 to \$13 per ton, has not so far affected Mexico, where this staple sells at about \$22 silver per ton. "Gale" sells here at \$20. The York gentleman, E. J. Burnside, told me at his hotel, the Reforma, yesterday that he and his family had just returned from a winter spend on the coast, and he counted. "It takes on an average three tons of coal to carry a family through the winter, the probable figure of \$30 per ton this winter, it would have cost us nearly \$1500 for coal. I have stayed up North, and I have been here and enjoy Mexico's love."

EVENTS IN SOCIETY.

Judge and Mrs. John D. Bicknell announce the engagement of their daughter, Miss Edna, and Charles T. Bagg, U.S.N. The wedding is to take place early in December.

The above announcement will be of widespread interest, due not only to the prominent social position occupied by the family of the bride elect, but also to her own great personal popularity. Miss Bicknell is known in local musical circles as a vocalist of no small attainments, and her social disposition and graciousness of manner have made her a favorite with a wide circle of friends.

Mr. Bagg has just returned from three years of service with the squadron in the waters of the Orient, and according to the latest news, he is expected to return to the United States in the next three months. He does not know yet where he will be sent, and the young people have no definite plans for their future residence. Mr. Bagg is not a stranger in the city, as he formerly made his home here, and graduated at the College of Medicine of the U.S.C.

Music and Hospitality.

Ellen Charter Day reception was given yesterday afternoon in Cumcock Hall, and the quaint dark-wooded interior formed a rich setting for the gay gowns of the ladies who filled the auditorium during a piano recital given by Miss Alice Coleman of Pasadena, and who, later, greeted the receiving party in the Shakespeare room, and were served the most delicious refreshment in the Ebbel Club quarters and adjacent parlors, or who chatted in groups in the Music and Hospitality.

The reception was given by the old and new officers of the recently reorganized Cumcock Club. The ladies received were: Mrs. Sumner P. Hunt, president; Mrs. William Dunn, first vice-president; Mrs. Florence Collins, second vice-president; Mrs. M. E. Robertson, recording secretary; Mrs. R. H. P. Van der Horst, treasurer; Mrs. C. C. Smith, general curator, and Mrs. Frank Kline, third vice-president, in charge of the House Committee, and the following members were assisting in receiving: Mrs. O. B. Churchill, Mrs. Milo Potter, Mrs. M. N. Avery, Mrs. Henderson Hayward, Mrs. J. C. Skidmore, Mrs. Guy Harrison, and Mrs. W. Wiggins served at the punch table. Chrysanthemums were in clusters in the hall, and the room was a touch of outdoor life to all the room.

Miss Coleman, who is a recent arrival from the East, is a graduate of the University of California, and has been successful in her studies and successful concert work in the East, was warmly received, and followed by the singing of light recitations. She gave the following numbers: "Sonata in A flat" (Op. 29) (Chopin); "The Secret" (Scott); "Prelude 1" (Op. 40) (Chopin); "Impromptu 1" (Op. 36) (Chopin); "Abendweide" (Schumann); "Capriccio from Suite in D minor" (Chopin); "Belladonna in A flat" (Chopin).

Season's Opening.

The Monday Musical Club met yesterday afternoon at the home of Mrs. Grand and opened the season with a grand and successful season of parlor entertainments. This, the first gathering of autumn, was attended by about thirty guests. The program was rendered: "Scherzo" (C. Z. Weber); Miss Rogers; (b) "When the Leaves Fall" (Arthur Aldrich); (c) "Gondoliers" (Miss Schallert); (d) "Hummer Boat" (Gaynor); (e) "The Robin" (Macdonald); (f) "The Girl in the Red Dress" (Miss Rogers); (g) "The Girl in the Red Dress" (Miss Rogers); (h) "The Girl in the Red Dress" (Miss Rogers); (i) "The Girl in the Red Dress" (Miss Rogers); (j) "The Girl in the Red Dress" (Miss Rogers); (k) "The Girl in the Red Dress" (Miss Rogers); (l) "The Girl in the Red Dress" (Miss Rogers); (m) "The Girl in the Red Dress" (Miss Rogers); (n) "The Girl in the Red Dress" (Miss Rogers); (o) "The Girl in the Red Dress" (Miss Rogers); (p) "The Girl in the Red Dress" (Miss Rogers); (q) "The Girl in the Red Dress" (Miss Rogers); (r) "The Girl in the Red Dress" (Miss Rogers); (s) "The Girl in the Red Dress" (Miss Rogers); (t) "The Girl in the Red Dress" (Miss Rogers); (u) "The Girl in the Red Dress" (Miss Rogers); (v) "The Girl in the Red Dress" (Miss Rogers); (w) "The Girl in the Red Dress" (Miss Rogers); (x) "The Girl in the Red Dress" (Miss Rogers); (y) "The Girl in the Red Dress" (Miss Rogers); (z) "The Girl in the Red Dress" (Miss Rogers).

Japanese Residents Preparing to Celebrate Their Fourth of July—Local Four Hundred are Invited.

The Japanese residents of Los Angeles are making elaborate preparations for the celebration of their Emperor's birthday, Monday evening, November 2. Turner Hall has been secured for the purpose and 400 invitations have been issued to prominent citizens, including city and county officials. Mayor Snyder has agreed to deliver an address, and there will be other speeches in both the English and Japanese languages.

One of the features of the program will be an historical Japanese play, by Japanese artists. There will also be Japanese dancing and other forms of entertainment, and music by American and Japanese orchestras. Every invited guest will receive a handsome souvenir.

The Emperor's birthday is to the Japanese what the Fourth of July is to Americans, and no expense will be spared in celebrating the day with becoming splendor. The decorations of the hall promise to be gorgeous. A variety of Japanese food, which is arranged to be served, will be a feature of the celebration.

ONLY ONE WITHOUT A STOP IN

New York-Boston Reliability Run

14 carriages started in Class A, 1000 pounds and under, in the recent New York-Boston Reliability run, but it was left for R. M. Owen, in an Oldsmobile to finish in solitary glory. In addition to being the victor in its class, the Oldsmobile made the whole run without a single penalized stop of any kind, thus indisputably demonstrating the high degree of perfection attained by the Oldsmobile Works in this world-famous runabout, which is "built to run and does it."

Why hesitate? Buy an Olds, and your troubles will be ended. Our demonstrator at your service. We can easily show you why this wagon is the peer of them all, and let the wagon do all the talking. The only automobile that is fully guaranteed by manufacturer. We are headquarters for all kinds of Auto supplies. Tires, all sizes, bells, lamps, auto horns, mud guards, gasoline oil, etc.

Men Only.

Sixteen Busy Years

I have treated men's diseases only for sixteen years, and one of my greatest pleasures is to represent a greater volume of good sense than several years brings the average physician or specialist. In explanation of this statement will say that I have been a specialist in men's diseases, and have treated thousands of cases, but have treated them right, acquiring an abundance of the very best kind of experience—experience of positive value in the treatment of men's diseases. I have been a specialist in men's diseases, and have treated thousands of cases, but have treated them right, acquiring an abundance of the very best kind of experience—experience of positive value in the treatment of men's diseases.

"Weakness"

My ability to cure these arrangements is mostly termed "weakness" has done more to extend my reputation as a specialist in men's diseases than any other factor. I was the first to discover that "weakness" is merely a symptom resulting from a chronically inflamed prostate gland, and that to remove this inflammation is the only method of permanently curing the disease. To this day my system of treatment is the only scientific one in use, and I have not failed to effect a complete cure in thousands of cases.

There are two reasons for this: First, the equal effectiveness of my method, second, my attempt to cure no incurable cases, and long experience enables me to recognize the cases that have passed into an incurable stage, and treat only such as I can cure.

DR. O. C. JOSLEN

Corner Third and Main Streets.

DOAN'S KIDNEY PILLS

There are times in a man's life when it is necessary to act quickly and decisively. Times when life itself depends on the doing of the right thing at the right time. Kidney troubles are slowly, but surely, dragging thousands of men and women to grave. It is only backache at first, doesn't amount to much, they think. Then, headache, dizzy spells, urinary troubles, diabetes and then, if it isn't checked, disease and death. But there is a way of escape. Hundreds and hundreds of Los Angeles people have found it.

DOAN'S KIDNEY PILLS

Never fail to quickly relieve the aching back. To cure every kidney ill, whether it be common backache or urinary disorders. H. G. Eater, now retired from active business, residence 40 Temple street, writes: "When I went to Dean's Drug Store, corner Second and Fifth streets, for Doan's Kidney Pills, I had rheumatic pains in my limbs, suffered severely from backache, and the usual accompaniment of kidney trouble, I knew that the treatment was a rheumatic trouble, and I am positive that the backache stopped. I sincerely hope the suits obtained from the use of Doan's Kidney Pills will be lasting. They also do not do any harm to the system."

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

FLAMES OF DEATH ENVELOPE POOR BOY.

DENVER LAD'S TERRIBLE FATE ON CRUEL DESERT.

Lies Down to Sleep, Beside a Fire and Blase Catches His Clothing—End Comes in San Bernardino County Hospital.

MAN BERNARDINO, Oct. 27.—Harold Aldridge, a sixteen-year-old boy from Denver, died in the County Hospital today from burns sustained on the desert near Needles. The lad and another youth, whose name is not known, left Denver a few weeks ago, bound for Los Angeles, attracted there by newspaper reports of an abundance of work. At Needles they were picked up, and they started on foot for Los Angeles. The first night out they camped near the railroad track, and as it was cold they built a fire of old tires and lay down to sleep next it. About midnight Aldridge's companion was awakened by the former's screams, and found him crouching by a fire of old tires, thought the lad had in his sleep rolled into the fire. His clothing was nearly burned off before the fire was extinguished, and so severe were the injuries that it was with difficulty that he returned to Needles. His companion was compelled to carry him a part of the way. Aldridge was sent to the County Hospital, but the other boy went on his way, and it was impossible to locate the dead boy's parents.

The Lewis Chittenden burglary trial was resumed this morning in Department One of the Superior Court, Judge Noyes of Riverside sitting for Judge Oster. The case has already occupied almost a week, and the prosecution has not yet rested. It was slow sailing last week. The defendant, including Burleigh, the Highland man who boomed and was jailed over Sunday, was in the witness chair today, and the taking testimony was resumed. Chittenden is charged with robbing a safe in a saloon at Barstow.

CAMPAIN CLOSING. The closing of the campaign will be comparatively quiet at the county seat, the meeting scheduled for Friday night, on the occasion of the visit of Capt. Daniels of Riverside, the

VENTURA COUNTY.

DEATH OF MRS. A. D. THATCHER.

OXNARD, Oct. 27.—Mrs. A. D. Thatcher of this city died in Washington, D. C., last night at 11:40 o'clock of pneumonia. She went East with her husband in September to attend the G.A.R. encampment, and they expected to return soon, visiting at the home of I. B. Thatcher, a brother of Mr. Thatcher, when Mrs. Thatcher was taken ill. The remains will be brought to Pomona, where the funeral service will be conducted. Mrs. Thatcher was born in Ohio and lived in that State during her girlhood. She was 63 years of age and had been married about forty years. In her later years the family made its home in Pomona, and the last three years were spent in Oxnard. The widow, Capt. A. D. Thatcher, and two sons, F. H. and A. A. Thatcher, are bereft of a devoted and loving wife and mother who had followed three sons to their last resting place.

F. H. Thatcher, the elder son, went to Pomona this afternoon, and he will go on to El Paso, Tex., to meet his father. H. A. Thatcher will go to Pomona Wednesday.

Mr. Thatcher will arrive with the remains in Pomona on Saturday.

HUENEME.

BEAN SHIPMENTS.

HUENEME, Oct. 27.—Bean ranchers are congratulating themselves on having harvested practically all of that bean before last week's rain. Friday the steamer Ramona took to San Francisco 1085 sacks of lima beans, and Monday 880 sacks were shipped by the Corona.

HUENEME BEVITIES.

Rev. George S. Madden gave an interesting talk on the "Cliff Dwellers of Mexico," based upon original research in that field a short time ago, and illustrated by stereoscopic views. The talk was in honor of Dr. Seacrest and wife, who have been visiting the pastor and his family during the past week, and who have started for their home in Ohio.

Mrs. Robinson of Ventura talked in the Baptist Church, at the request of the "Y" Society. An organization was started, and names of officers proposed. Another meeting will be held this week in the Methodist Church.

Mrs. Duer will entertain the W.C.T.U. at her residence Tuesday evening. The engagement of S. Stamps, Jr., of Los Angeles, and Miss Ruby Little of Huenehme has been announced. The marriage will take place November 14.

SANTA-BARBARA.

STEAMSHIP PASSENGERS.

SANTA-BARBARA, Oct. 27.—The report that the Pacific Coast Steamship Company would soon discontinue its passenger service between San Francisco and San Diego and between San Francisco and Puget Sound, is positively denied by the company's representatives. They state that such discontinuance was never even considered or contemplated, and that the service will be continued and improved, the traffic being extensive, as shown by the vessel's passenger lists on any voyage. So many persons prefer to travel by sea, it is pointed out, that railway competition cuts little figure, and the steamship company gets its share of the business, and will continue to handle it. This will be good news to the ports which would have been affected.

SAN DIEGO COUNTY.

CAPT. JADWIN VISITS HARBOR.

SAN DIEGO, Oct. 27.—Capt. Jadwin arrived from Los Angeles yesterday for the purpose of looking over the plans for the harbor improvements. This afternoon he made a trip to Fort Rosecrans.

In yesterday's practice shoot of Co. B the highest score was 59, made by Lieut. Tichenor, while six of the other thirteen marksmen made 50 or over.

William E. Smythe, Democratic candidate for Congress in the Eighth District, spoke at the rally at the opera-house this evening. He tried to answer the brilliant Maine Congressman, Littlefield, who spoke from the same platform Friday evening.

The work of unloading the 21,000 barrels of cement, brought from Antwerp by the Tostith, was begun this morning.

REDLANDS.

CLOSING RALLY TONIGHT.

REDLANDS, Oct. 27.—There will be a Republican rally tomorrow night, in close the campaign in Redlands as far as public meetings are concerned. Capt. M. J. Daniels, Hon. James McLaughlin, Hon. S. C. Smith of Bakersfield and Wilfred M. Peck will be the speakers. The band will give an outdoor concert before the meeting, and it is expected that the large tent will be crowded.

REDLANDS BEVITIES.

Mrs. J. E. Armstrong and daughter have arrived from Washington, Pa., to join Mr. Armstrong, the family will locate there.

William Menzel, proprietor of the Rose Hotel, Ventura, has been spending the winter in Los Angeles.

Mrs. Sylvanus Thurman of Bluff Lake, has returned from an extended visit with relatives near Boston, Mass.

Mrs. A. L. Palmer, accompanied by her son, has gone to visit Watsonville friends.

H. Dixon of Hemet is the guest of the family of his daughter, Mrs. L. F. Miller.

L. F. Miller has departed for Gila Bend, Ariz., to locate in the Territory for the benefit of his family.

There has been considerable talk caused by the disclosures made at the county fair, and the fact that they have an extensive property in California.

The Lewis Chittenden burglary trial was resumed this morning in Department One of the Superior Court, Judge Noyes of Riverside sitting for Judge Oster.

The closing of the campaign will be comparatively quiet at the county seat, the meeting scheduled for Friday night, on the occasion of the visit of Capt. Daniels of Riverside, the

H. Dixon of Hemet is the guest of the family of his daughter, Mrs. L. F. Miller.

L. F. Miller has departed for Gila Bend, Ariz., to locate in the Territory for the benefit of his family.

There has been considerable talk caused by the disclosures made at the county fair, and the fact that they have an extensive property in California.

The Lewis Chittenden burglary trial was resumed this morning in Department One of the Superior Court, Judge Noyes of Riverside sitting for Judge Oster.

The closing of the campaign will be comparatively quiet at the county seat, the meeting scheduled for Friday night, on the occasion of the visit of Capt. Daniels of Riverside, the

VENTURA COUNTY.

DEATH OF MRS. A. D. THATCHER.

OXNARD, Oct. 27.—Mrs. A. D. Thatcher of this city died in Washington, D. C., last night at 11:40 o'clock of pneumonia. She went East with her husband in September to attend the G.A.R. encampment, and they expected to return soon, visiting at the home of I. B. Thatcher, a brother of Mr. Thatcher, when Mrs. Thatcher was taken ill. The remains will be brought to Pomona, where the funeral service will be conducted. Mrs. Thatcher was born in Ohio and lived in that State during her girlhood. She was 63 years of age and had been married about forty years. In her later years the family made its home in Pomona, and the last three years were spent in Oxnard. The widow, Capt. A. D. Thatcher, and two sons, F. H. and A. A. Thatcher, are bereft of a devoted and loving wife and mother who had followed three sons to their last resting place.

F. H. Thatcher, the elder son, went to Pomona this afternoon, and he will go on to El Paso, Tex., to meet his father. H. A. Thatcher will go to Pomona Wednesday.

Mr. Thatcher will arrive with the remains in Pomona on Saturday.

HUENEME.

BEAN SHIPMENTS.

HUENEME, Oct. 27.—Bean ranchers are congratulating themselves on having harvested practically all of that bean before last week's rain. Friday the steamer Ramona took to San Francisco 1085 sacks of lima beans, and Monday 880 sacks were shipped by the Corona.

HUENEME BEVITIES.

Rev. George S. Madden gave an interesting talk on the "Cliff Dwellers of Mexico," based upon original research in that field a short time ago, and illustrated by stereoscopic views. The talk was in honor of Dr. Seacrest and wife, who have been visiting the pastor and his family during the past week, and who have started for their home in Ohio.

Mrs. Robinson of Ventura talked in the Baptist Church, at the request of the "Y" Society. An organization was started, and names of officers proposed. Another meeting will be held this week in the Methodist Church.

Mrs. Duer will entertain the W.C.T.U. at her residence Tuesday evening. The engagement of S. Stamps, Jr., of Los Angeles, and Miss Ruby Little of Huenehme has been announced. The marriage will take place November 14.

SANTA-BARBARA.

STEAMSHIP PASSENGERS.

SANTA-BARBARA, Oct. 27.—The report that the Pacific Coast Steamship Company would soon discontinue its passenger service between San Francisco and San Diego and between San Francisco and Puget Sound, is positively denied by the company's representatives. They state that such discontinuance was never even considered or contemplated, and that the service will be continued and improved, the traffic being extensive, as shown by the vessel's passenger lists on any voyage. So many persons prefer to travel by sea, it is pointed out, that railway competition cuts little figure, and the steamship company gets its share of the business, and will continue to handle it. This will be good news to the ports which would have been affected.

SAN DIEGO COUNTY.

CAPT. JADWIN VISITS HARBOR.

SAN DIEGO, Oct. 27.—Capt. Jadwin arrived from Los Angeles yesterday for the purpose of looking over the plans for the harbor improvements. This afternoon he made a trip to Fort Rosecrans.

In yesterday's practice shoot of Co. B the highest score was 59, made by Lieut. Tichenor, while six of the other thirteen marksmen made 50 or over.

William E. Smythe, Democratic candidate for Congress in the Eighth District, spoke at the rally at the opera-house this evening. He tried to answer the brilliant Maine Congressman, Littlefield, who spoke from the same platform Friday evening.

The work of unloading the 21,000 barrels of cement, brought from Antwerp by the Tostith, was begun this morning.

OCTOBER DAYS ON THE PLANTATION.

ODD WAYS IN WHICH THE NEGRO ENJOYS HIS MONEY.

Must Have a Bank Book, Though not for Long—Is Fond of Insurance, Too, and is Victimized—Rage for Eyeglasses and False Teeth.

[New York Sun.] This is the time of year when most things happen and even the humblest country citizen develops an enthusiasm for business.

To dwellers in bustling centers used to the bustle of the city, it is a surprise to find the country citizen so much interested in the things of the city.

With October days and the high tide of the cotton harvest he gets his hands on actual cash and enjoys the feeling of being able to buy from whatever store he pleases, and of being independent of the storekeeper.

John Ficus, who recently purchased a house in the city, has an account of the cotton harvest and the feeling of being able to buy from whatever store he pleases, and of being independent of the storekeeper.

At the most, after his land rent is paid, he has a few dollars to his credit, which he can display to neighbors and spread among the family.

Before he uses it all he must first put it in the bank. Whatever the sum or however soon he intends to use it, he puts it in the bank.

Some depositors put in a dollar or two one week only to have the pleasure of seeing the money grow.

Indeed, so proud and pleased are they with the money that they would not let it go for anything.

The radiant face of the plantation hand, who has money in the bank, is a sight to be seen.

EUROPE'S OVERFLOW.

Nearly Five Thousand Immigrants Poured into New York Recently in a Single Day.

[New York Sun.] Some theatrical manager who wants new ideas for stage groups and shows should have gone to the Battery yesterday afternoon, when 3000 immigrants, most of them Italians, added themselves to the population of New York.

It was a record-breaking day for Ellis Island and the Battery Office. The steamships Perugia, from Genoa, and the Zeeland, from Antwerp, arrived on Sunday, and the Zeeland, from Antwerp, arrived on Sunday, and the Zeeland, from Antwerp, arrived on Sunday.

There were so many children with indulgent parents, that the Battery Office was a good-natured crowd, and a prosperous one, too, according to Aunt Jane, the old Irish woman, who runs the banana and caraway cookie stand in the lower deck of the Battery.

There were so many children with indulgent parents, that the Battery Office was a good-natured crowd, and a prosperous one, too, according to Aunt Jane, the old Irish woman, who runs the banana and caraway cookie stand in the lower deck of the Battery.

There were so many children with indulgent parents, that the Battery Office was a good-natured crowd, and a prosperous one, too, according to Aunt Jane, the old Irish woman, who runs the banana and caraway cookie stand in the lower deck of the Battery.

"La Mazeno" Kid Gloves
Are absolutely the best imported kid glove at a popular price.

Men's 50c Underwear 25c.
An excellent quality Derby Ribbon Cotton Underwear—blue and tan colors, made with French necks, in all sizes, furnished with pearl buttons, perfect form fitting and shown elsewhere at 50c, but our regular leader at 80c. Will be priced for today only, at per garment.

25c

\$1.50 Japanese Jardiniere, 69c.
Sale for 4 Hours from 8 to 12 a. m. Today Only.

Our Mr. Hamburger on his recent trip to Japan purchased an assortment of choice Tokonabe Jardiniere from the pottery where made. They are from 8 to 9 inches in size, are handsomely decorated with dragons and leaf effects; some of them gold stippled; others finished with openwork around top. Now bear in mind that these are the genuine product and our own importation. There are others advertised and shown elsewhere in Los Angeles which are but mere imitations and in no manner satisfactory and at the same time are sold for as much as the genuine article. As an absolute fact these goods we will show today can by no possibility be duplicated on the Pacific coast and the sale price is less than any local dealer would pay as freight on the same goods from New York to Los Angeles. Not a piece in the lot worth less than \$1.35; most of them \$1.50 but as the assortment is not exceptionally large, they will probably not last longer than four hours for they go on sale from 8 to 12 a. m. today only at choice.

69c

Ladies' 50c "Korso" Vests at 25c
The Genuine "Korso" Vest—Extensively advertised and sold elsewhere at 50c. Will be offered as a merchandise leader for today. They are in white only; are lace trimmed, and are finished with white satin ribbon; come in all sizes, and for the one day only, choice.

25c

Daintiness in Cut Glass Tableware
Every woman appreciates a few pieces of dainty cut glass for her table, buffet or China closet. Exclusive stores charge exclusive prices but we ask but a fair profit on this class of goods and assure you that no better showing is made by any store this side of Chicago. Our new holiday lines are in and there is a complete assortment of everything new and dainty.

\$1.25 Cut Glass Vinegar Cruet, 95c.
To center your attention on our handsome showing of cut glass we make a special leader for today only of a choice lot of cut glass oil and vinegar cruets; very newest shapes and patterns and all furnished with cut glass stopper; regular price \$1.25. For the one day only, choice.

95c

Second Day Floor Covering and Drapery Sale.
A \$10,000.00 Reduction Sale of Domestic and Foreign Products.

We have but a few days to reduce the stocks in this department sufficiently to allow us to install another handsome holiday bazaar which you probably will remember is one of the choice attractions of our fourth floor during the holiday season. The present drapery and floor covering stocks are too enormous to be congested in smaller space which we can allot to it and this sale is a genuine reduction of more than \$10,000.00 on the original values. It is an opportunity to completely furnish your home with these necessities or to buy choice carpets, rugs and draperies to brighten up what you already have. There are scores of good values, but the following items especially merit your attention:

Ladies' Fall and Winter Gloves.
Use a little care to prevent your hands from chapping from the fall winds. A glove affords the necessary protection and at the same is a dainty part of a woman's costume. While we have an almost limitless stock of gloves, we itemize but four leading values in this ad, by which you may judge all other good things we have to show.

49c Each. Imported Scotch Rugs—perfectly reversible; post striped effects; fringed to match; size 36x72 inches; have sold up to now at 75c.

\$3.50

\$6.00 a Pair Curtains at Each, \$1.49.
300 odd Laces Curtains—Consisting of Cable net and copies of real Brussels lace; 3 1/2 yards long by 54 inches wide; actually worth from \$4 to \$6 a pair. Sale price, each.

\$1.49

85c All Wool Carpet Filling, 59c.
An Extra Heavy Super All Wool Filling—Choice colors; very substantial; 36 inches wide; have sold up to now at 85c. Priced for this sale at, per yard.

59c

\$7.50 Silk Petticoats \$5.98.
A Silk Petticoat is the proper thing to wear with your new costume; and to get you interested in our new winter lines of fine petticoats we place on sale for today as a leader a number of Taffeta silk petticoats with deep flounces; trimmed with accordion plaited ruffles and pinked out ruching; are in all colors and actual \$7.50 values. For the one day only, choice.

\$5.98

Quantity and Quality in Wool Waistings
Nowhere else is there such an elaborate showing of fall and winter waistings nor, quality considered, are any so low priced. There is such a daintiness in the color combinations and patterns for this season that shirt waistings of these heavier textures will rival those for summer wear. Make your selections now while assortments are complete and have them made in time to get a full season's service.

At 49c A Yard. New Wool Waistings—In pretty patterns and weaves, including prunella, granite, serge and nankeens; also lace striped effects. Colors are pink, blue, red, green, old rose, tan, gray, also black and white, cannot be matched else.

At 75c A Yard. 27-inch Wool Waistings—New light and dark shades of popular colorings, also black and white. The weaves are granites, serges and satin prunellas with lace, cord and Roman stripes; also fancy corded stripes with sidebands for collars and cuffs.

At 85c A Yard. Imported wool waistings—Two-tone effects; wide or narrow stripe patterns; dainty shades of popular colorings, also black and cream. Some are in tucked effects with heavy cord woven on side or plain tucks; widths 25 to 27 inches. These are a and wool.

At \$1.00 A Yard. Imported Wool Waistings—Plain colors and two-toned effects in silk or corded stripes, fancy Persian stripes or tucked in Persian effect; strictly all wool; widths 24 to 27 inches.

At \$1.25 A Yard. 29-inch Tucked Wool Waistings—A popular new novelty in the most desirable colorings, also black and white combinations with wide satin stripes or black and white cords; all of them are handsomely tucked and are in Taffeta weaves.

At \$1.50 A Yard. 32-inch Wool Waistings—Choice assortment of corded and Persian stripe effects in black and popular colorings, also black with Persian border for trimming; strictly all wool.

First Showing of New and Stylish Umbrellas.
Largest Assortment Ever Shown Under One Roof in Los Angeles.

We have without a doubt the finest assortment of umbrellas ever carried by any local house. Surpassing our own previous efforts, means a great deal, for we feel that we have always carried a stock of these necessities, pleasing to all tastes; suited to all purposes. Among this line are included imported ash, boxwood, furze, waichael and all English hardwood handles; in addition to which there is a particularly nice assortment of solid pearl and sterling silver handles in very swellest patterns; also gunmetal handles inlaid with turquoise, pearls and rubies.

Our Semi-annual Ribbon Sale.
Judging from the popular response yesterday and knowing that the majority of women are acquainted with the different values of goods as shown all over the city, we are satisfied in our own minds that the public realize that no such ribbon values are offered elsewhere. It is our semi-annual ribbon sale and we use extraordinary efforts to secure the finest ribbons procurable in this and foreign countries, and there is such a generous grouping of shades and widths in everything new and pretty that every feminine taste can be satisfied.

Silk Umbrellas—Paragon frame; steel rod; pretty horn and natural wood handles; matchless anywhere under \$1.00. Sale price.

Silk Umbrellas—An assortment of twenty-five styles with German silver horn and natural wood handles; box wood or waichael wood. Matchless anywhere under \$1.95. Sale price.
